

Our company offers Murphy Bed's that are custom designed to fit the needs of your home. They combine style and are a great way to utilize any space. From country cottages, to suburban houses, to downtown condos, everyone can use a little more space. We offer endless possibilities to maximize every square foot in any space. A guest room? Home office? Play room? A Murphy wall bed can transform your space allowing one room to serve many purposes. By day, our murphy wall bed systems offer features like desks or shelving systems. By night, they transform into quality, comfortable beds for your family or guests.

A Murphy Bed, also known as a wall bed, is an American invention by William L. Murphy (1876–1959). It's bed frame is mounted to the floor not the cabinet. This allows the bed to store vertically against the wall, or inside a closet or cabinet. Cabinets are made on a custom basis so the possibilities are endless. They are made from a variety of woods or can be painted to add a fun theme to any room. Wall beds are used for space-saving purposes. Murphy beds are not only popular where floor space is limited, such as small homes or apartments, but they are also found in larger homes to increase the useable space when a bedroom is only occasionally needed. Wall bed units can include many options such as lighting, storage cabinets, drawers and office components. Today murphy beds enjoy a new found popularity helping us all to beautifully enhance our living spaces.

## Alder beds open/closed

Alder beds showing 2 side cabinets with drawers and shelving on 1 side and cupboards and shelving on the other side. Bed cabinet has raised panels and bead board trim doors.

## Office by day/ Guest room by night

## Children's Room Ideas

Have fun designing the perfect Murphy bed for your home. These beds can be taken with you if you move or left in the home for added value.

## Custom Design = Endless Possibilities

We will work with you to design a custom murphy wall bed system that is tailored to your personal taste and will provide an innovative, stylized solution to maximize your available space.
